

Residence One is looking for a senior designer with luxury residential experience. The position provides an opportunity to transition to a client-side studio, creating original and inspiring design for turn key projects.

We are looking for an exceptional designer with architectural or interior design background. The ideal candidate requires extensive experience in the design of prime London properties.

Job Description

- Creating concepts for prime residential projects.
- Developing designs for the delivery of concepts.
- Preparation of tender documentation.
- Appraisal of sites.
- Developing exceptional layouts, elevations and finishes.
- Collaboration with FF&E design team.
- Site monitoring during construction.
- You will be reporting to the associates and directors, whilst leading and managing design teams.
- Strong supplier knowledge.

Skills necessary:

- Architectural or interior design proven track record delivering exception residences in the UK or internationally from concept to delivery.
- A minimum of 5 years' experience working in luxury residential design.
- Strong technical design skills.
- Some experience in Vectorworks.
- Fluent using Adobe Master Suite.
- Fluent with Microsoft Office.
- Good communication, both written and verbally.
- Commercial awareness and interest.
- Collaborative, positive attitude.
- Strong eye for detail.
- Intuitive work ethic.

Role & Responsibilities:

- To collaborate with the in-house design team directly to develop the project design and details, schedules.
- Design in line with project brief, budgets, and programme.
- Supporting team members.
- Reporting to Head of Design.
- Accurately developing designs for tender.
- Preparing construction information.
- Co-ordinate FF&E in advance of FF&E install.
- Undertake product research and visit showrooms, suppliers.
